Elevate Indoor Air Safety with the Prana Air SQUAIR Monitor

Indoor environments often contain unseen pollutants—fine particulates, toxic gases, and fluctuating environmental conditions—that can significantly affect health and productivity. Continuous monitoring is the first step toward maintaining a safe indoor environment.

The **SQUAIR Air Quality Monitor** from Prana Air delivers industry-grade indoor air monitoring with smart connectivity and multi-parameter sensing. Available in **Lite** and **Pro** variants, it tracks a comprehensive set of pollutants and conditions: PM_{10}, $PM_{2.5}$, CO_2, TVOCs, HCHO, noise, light, temperature, humidity—and in the Pro version, advanced gases like CO, O_3, SO_2, and NO_2 instagram.com+8pranaair.com+8pranaair.com+8.

Key Highlights:

- **Real-time & reliable insights**: View live and historical air quality data via intuitive web and mobile apps, including smart-TV compatibility .
- **Flexible connectivity and storage**: Supports Wi-Fi, RS-485, GSM, and includes onboard micro-SD logging for data backup pranaair.com.
- **Built-in alert system**: Configurable alarms notify users when air quality deteriorates, facilitating timely action.

Crafted for homes, schools, offices, and sensitive indoor spaces, the SQUAIR meets international standards like WELL, LEED, and ASHRAE for air monitoring compliance pranaair.com+3pranaair.com+3pranaair.com+3instagram.com+8pranaair.com+8youtube.com+8.

Why SQUAIR stands out:

1. **Comprehensive pollutant detection** – Especially in the Pro version.
2. **Multi-platform data access** – Monitor indoor air quality on web, mobile, or TV.
3. **Deployment versatility** – With options like RAM-mount and GSM support for remote setups.
4. **Compact yet powerful** – Lightweight and solid-state for easy placement and upgradable storage.

Call to Action:

To enhance indoor health and safety, embed the SQUAIR Air Quality Monitor into your environment. With precise monitoring and instant alerts, it empowers occupants and facility managers to breathe safer and smarter.
